

Warm Up # 1

- ❖ Copy the daily agenda into your agenda book.
- ❖ What is one way to represent the side length of the figure below?

a. 9

b. $\sqrt{3}$

c. 3^2

d. 3

Warm Up 2

❖ Copy the daily agenda into your agenda book.

Part 1:

Karen is making bracelets for some of her friends. She has $5\frac{2}{5}$ yards of string. She needs $\frac{3}{8}$ yards of string for each bracelet. How many friends will she be able to make bracelets for?

Part 2: Explain in your own words your method for solving this problem. Be prepared to share your strategies.

Part 3: Turn your warm up page over for more challenging problems. 😊
