

# Warm Up # 1

Please complete the warm up in your math notebook today.

Small Middle School is holding a science fair in which every seventh grader will participate. To estimate the number of students that will participate in the science fair, the principal used the following information.

- There are 3 seventh grade science teachers
- Each teacher has 4 – 5 science classes
- There are 30 – 35 students in each class and each student created a project.

What is the best estimate of the total number of seventh grade students that will participate in the science fair?

a. 360

b. 525

c. 450

d. 600
