

Warm Up # 1

Seventh grade students at Small Middle School will visit the Texas State Cemetery the last week of school. Only 240 of the 360 students returned their permission forms to go on the field trip. Write a simplified fraction and an equivalent percent to represent the number of students that will be attending the field trip.

Warm Up # 2

The model below is a square with an area of 36 square units.

Which of these equations can be used to determine s , the side length of this model in units?

a. $s = \sqrt{18}$

b. $s = 6^2$

c. $s = 36$

d. $s = \sqrt{36}$

Warm Up # 3

Kelly sent packages to her 4 cousins. The weight of each package was between 12.56 ounces and 15.4 ounces. Which of the following could be the total weight of the packages that Kelly sent?

- a. 50 oz. b. 62 oz. c. 55 oz. d. 45 oz
